# ALL IN ONE

**Custom MOQ:** 3,000 Units Only

**Pantone Color Options:** Choose your own custom colors

**Digital Printing / Silk Printing / Engraving / Water Transfer / 3D Or Embossed**

### **Tailored to Perfection**

At DIST, we empower you with the ability to tailor and customize your devices, from selecting Pantone colors to adjusting resistance and voltage settings.

Our commitment to excellence extends beyond device design—now you can also customize your device's settings to ensure the maximum end-user experience.

### **Temperature Settings Control**

For the ideal vaping experience, take control of your device's temperature settings to meet the specific preferences of your customers.

**ALL  
IN  
ONE**

# CALM<sup>+</sup>

Breathe Easy,  
Live Calm

Type-C 

## TSS Reader: A Game-Changer in Vape Control

The industry's first programmable smart solution. The TSS Reader lets you customize the heating cycle and fine-tune the temperature to preserve the pure flavor and full terpene profile of your extract.

## Free of Central Post Design

CALMS's central post-free design prevents direct contact between the oil and the heating element, effectively minimizing the risk of exposure to harmful chemicals. Besides, its unique ceramic heating elements without central posts are ideally for vaporizing live resin and live rosin oil.

# CALM<sup>+</sup>

Postless All-In-One Vape

Product Type: All-In-One

---
