F00046

Fire OG

Vibe: Sunrise and sunset combined.

Fire OG is a favorite amongst OG Kush fans begotten via a cross between SFV OG Kush & OG Kush. The name of cultivar stems from the bright red hairs that make it appear to be on fire. Cayenned carrots and smoked lemon heads give way to kumquat and tangerine peels on the nose with lasting undertones of yuzu and quince paste. Pineapple leaves, wild thyme, and fruits of both dragons and stars flit over the palate followed by a warm zephyr of sumac, sorrel, saffron and cinnamon bark.
